

**NAIC STATISTICAL  
HANDBOOK**

### NAIC STATISTICAL HANDBOOK

The NAIC Statistical Handbook is a publication of the National Association of Insurance Commissioners. The handbook gives the reader an overview of the statistical data required from property/casualty insurers. Each line of business is addressed in the handbook.

Section 23, 23A, 23B, Appendix A, Appendix B, Appendix C, Appendix D and Appendix E all address workers' compensation.

In Section 23A the reader is introduced to the Model Workers' Compensation Statistical Plan-Unit Statistical Reports, which was adopted by the NAIC.

Section 23B deals with calls for aggregate experience. An overview of each of the calls, e.g., Policy Year Call, is provided.

Appendix A does not just apply to workers' compensation; it provides an overview of ratemaking.

Appendix B lists the various statistical agents including the various Data Collection Organizations.

Appendix C provides an overview of the data reporting requirements for Individual Case/Claim Reports.

Appendix D is an overview of the data reporting requirements of Detailed Claim Information.

Appendix E is an overview of the policy information data.
