Report this code for any modification factor resulting from an independently filed rating plan based on an insured’s loss experience and used to modify the insured’s manual premium on a prospective basis. This would include any factor based on a bureau’s standard experience rating plan modified for independently filed ELR and D ratios.

**OTHER INDIVIDUAL RISK RATING FACTOR**

<table>

<tr>

Provide the factor resulting from any rating plan based on the insured’s characteristics other than its loss experience and used to modify the manual premium amount on a prospective basis (e.g., schedule rating). If more than one factor is applicable, enter the composite factor.

If this factor is not applicable, enter “1000”. This field must not be left blank.

The factor to be entered is the decimal complement of percentage credits or debits.
Insurers may, at their option, report the total dollar effect of these factors on an Exposure Record (Record Type Code 05) under the appropriate statistical classification code. If this option is chosen, report “1000” in this field.

There is an assumed decimal point between positions 99 and 100.

**INSURER PREMIUM DEVIATION FACTOR**

*NOT APPLICABLE: CA, DE, NJ, NY, PA, WI*

Report the factor used to modify the insured’s premium amount based on the insurer’s filed flat premium amount deviation.

If no deviation applies, or if the insurer deviates each particular rate and prints the deviated rate on the policy Information Page, enter “1000”.

If the insurer deviates each particular rate and prints the deviated rate on the policy Information Page the insurer premium deviation factor may be reported if the factor applies to all classes.

If this factor is not applicable, enter “1000”.

The factor to be entered is the decimal complement of percentage debits and credits.

At the DCO direction or offering of the option the insurers may, at their option, report the total dollar effect of their flat premium deviation on an Exposure Record (Record Type Code 05) under the appropriate statistical classification code. If this option is chosen, report “1000” in this field and code 4 in position 107.

There is an assumed decimal point between positions 103 and 104.

**TYPE OF PREMIUM DEVIATION CODE**

*NOT APPLICABLE: CA, DE, NJ, NY, PA, WI

**EXPOSURE ACT/EXPOSURE COVERAGE CODE**

Report the code that indicates the Act (Law) under which the exposure for the class code is associated.

An Exposure Act/Exposure Coverage Code is required for all exposure records. Statistical codes can be coded to 00 or the Act (Law) governing the policy. N/A: CA

Regardless of the Act (Law) governing the policy, statistical codes must be reported as 00. N/A: DE, MA, MI, MN, NC, NCCI, NJ, NY, PA, WI

classification code on this record.

If the exposure amount for the classification code is on an “if any” basis, report zeros.

For three-year variable rate policies or continuous policies, report the premium amount for the rating period.

For policies reported on a split period basis, report the premium amount for the policy period represented by the Exposure Period Effective Date (positions 79–84).

There are many miscellaneous premium amount charges (debts or credits) that may be applicable in addition to classification premium amounts developed by extension of exposure at authorized rates. These miscellaneous premium charges must be reported under the appropriate classification codes given in the appropriate Manual or Statistical Plan.

For statistical code 9740, Catastrophe Provisions for Terrorism, report the estimated premium amount associated with this statistical code, if applicable. The estimated premium amount for standard classification codes and other statistical codes need not be reported. N/A: DE, MA, MI, MN, NC, NCCI, NJ, NY, PA, WI

For policies reported on a split period basis, report the exposure amount for the policy period represented by the revised Exposure Period Effective Date (positions 79–84).

**ESTIMATED PREMIUM AMOUNT**

NOT APPLICABLE: DE, MA, MI, MN, NCCI, PA

Report the premium amount corresponding to the classification code on this record.

If the exposure amount for the classification code is on an “if any” basis, report zeros.

For three-year variable rate policies or continuous policies, report the premium amount for the rating period.

There are many miscellaneous premium amount charges (debits or credits) that may be applicable in addition to classification premium amounts developed by extension of exposure at authorized rates. These miscellaneous premium charges must be reported under the appropriate classification codes given in the appropriate Manual or Statistical Plan.

For statistical code 9740, Catastrophe Provisions for Terrorism, report the estimated premium amount associated with this statistical code, if applicable. The estimated premium amount for standard classification codes and other statistical codes need not be reported. N/A: DE, MA, MI, MN, NC, NCCI, NJ, NY, PA, WI

**Record 87**

Link Data is a collection of data elements that are common to all records in the data specification. These common data elements allow the applicable records to be joined. For presentation purposes only, Link Data is shown as Record Type 0 or 00 and should not be considered a separate record but rather a sub-record within each record.

Report “87”.

This Record Type Code will accommodate changes to certain data elements associated with certain endorsement numbers indicated in the Policy Information Page Change Endorsement WC890600. Premium changes cannot be made via this record.

Record Type Code 87 may only be reported using Transaction Code 03, for any of the listed endorsement numbers. Record Type Code 87 may not be reported on complete policy transactions.

A separate record is required for each data element changed. Certain data elements may require multiple change endorsement records.

Effective 07/01/16 this record will no longer be accepted. N/A: CA, MA, MI, MN, NC, NCCI, NJ, NY, WI

|           | Report the number identifying one name or a group of names. When reporting more than 998 separate names, report positions 295-296—Name Link Counter Identifier in conjunction with this field. There must be at least one Address Record for each Name Link Identifier (and Counter Identifier if reporting more than 998 separate names) on the policy. In the event that multiple names are located at one address and these names are all included on
the same Name Link Identifier (and Counter Identifier if reporting more than 998 separate names), then only one address record must be reported with that Name Link Identifier (and Counter Identifier).

In the event that multiple names are residing at one address, multiple (Address Type Code 2) records for the same address associated with the different names must be reported.

This field is required for Address Type Code 1 (Mailing Address of Insured), 2 (Address of a Location of Operations) and 6 (No Specific Location).

For Address Type Codes 3, 4 and 5; report "999".

Refer to the Data Reporting Handbook for further instructions.
