

DATA ADVISORY COMMITTEE CHARTER

The purpose of the Data Advisory Committee's ("DAC") is to promote the efficient reporting and collection of data across jurisdictions as required for rate making and other key functions of the WCIO Members. The data to be discussed at DAC meetings includes, but is not limited to, policy, unit, financial, medical and indemnity data. The DAC shall fulfill its primary purpose by regularly engaging in the following activities:

- A. Communicating with industry stakeholders to identify data needs, preferred options for reporting procedures, and efficient data collection methodologies;
- B. Identifying and recommending data collection standards and formats;
- C. Identifying and recommending cost savings processes;
- D. Identifying and recommending procedures for enhancing data accuracy;
- E. Identifying and consulting with independent industry experts relating to data collection and data accuracy;
- F. Ensuring DAC committee members possess sufficient training and experience to fulfill DAC's mission;
- G. Exploring issues relating to data security and data confidentiality; and
- H. Regularly reporting the DAC's activities to the WCIO Board of Directors, including making any related recommendations.
